

[China Casting Machining,Casting process,Casting metal Manufacturer, Supplier, Factory, Exporter in china](#)

Metal machining Introduction :

We are not only manufacture blank casting parts, but also provide machining processing service with complete assembly to customers, metal turning, milling, drilling, tap, and other high-precise CNC machining operations.

It covers stainless steel casting machining, steel casting machining, forged parts machining and stock bar material machining

(Cnc machined parts Steel Casting Machining Investment Casting Tooling)

With our complete quality control system and advanced equipments, we can machine the parts in very closed tolerance and high grade surface quality!

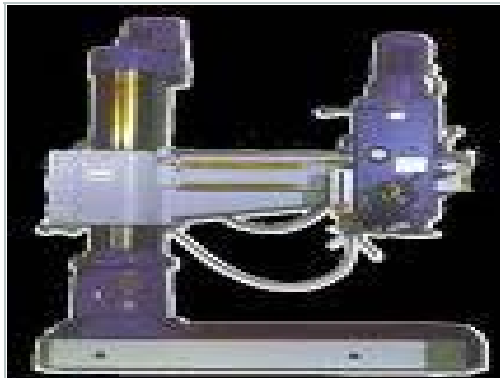

Welcome OEM manufacture!
